

Consumer Fireworks

Follow the flow-chart below to ensure you're following the appropriate regulations

Fireworks Safety Tips

Purchasing

- Must be 18+ to purchase or discharge fireworks
- Purchase fireworks from a reliable source
- The use of firecrackers is not permitted

Setup

- Read the instructions and warnings provided with each firework
- Setup outside in a clear open space away from buildings and vegetation
- Check wind direction to ensure wind is not blowing in the direction of spectators
- Ensure a safe distance between the display and spectators (follow instructions)
- Have a water supply or fire extinguisher on hand
- Have a first-aid kit nearby

Discharging

- Do not discharge fireworks if you are impaired by drugs or alcohol
- Light fireworks one at a time
- Wear protective equipment such as eye protection and gloves
- Do not lean over the fireworks while lighting them
- Never attempt to re-light a defective firework
- Never hold a firework in your hand to discharge it

Disposal

- Immerse sparklers in a bucket of sand to cool them down after use
- Allow fireworks to fully cool before disposing of them
