Purpose and Effect of the Application

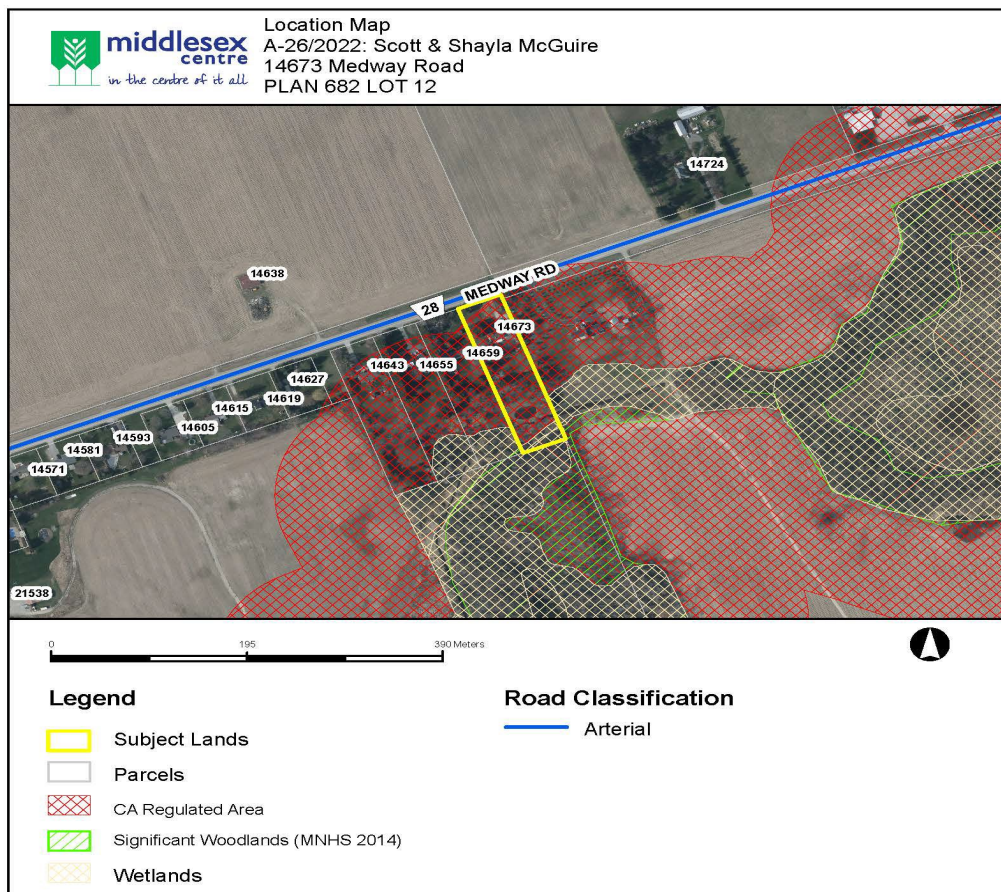

The Municipality is seeking input on a development application within 60 metres of your property. The purpose and effect of the Application for Minor Variance is to seek relief from the Middlesex Centre Comprehensive Zoning By-law 2005-005 as it relates to the maximum permissible gross floor area and height for an accessory building in the Agricultural (A1) Zone. The applicant is requesting a maximum size of all accessory buildings of 200.6 square metres (2159 square feet) or 2.4 percent lot coverage, whereas the Zoning By-law permits a maximum size of the lesser of one hundred sixty five square metres (165.0 m²) (1776 square feet) of gross floor area or three percent (3%) lot coverage, which in this case would be a maximum permissible size of 165 square metres. The applicant is also seeking relief to the maximum permitted height for an accessory building to 7.24 metres (23.77 feet), whereas the Zoning By-law permits a maximum height of 6.5 metres (21.3 feet). The effect of the proposal is to facilitate the construction of one accessory building in the rear yard of the property.
